

THE SAMVARDHANA MOTHERSON GROUP
INTEGRATING FOR THE FUTURE!

SMR Automotive

MSSL has a highly successful joint venture with VisiCorp in India for the past 13 years and is a leading supplier of rear-view mirror systems to automobile manufacturers in India. This acquisition will lead to significant leveraging of business synergies as the existing business of Sumi Motherson Group greatly supplements VisiCorp needs for products and services, particularly in design engineering services, IT, injection molded parts & assemblies, molds and wiring harnesses. With this acquisition, Sumi Motherson Group has become one of the largest manufacturers of automotive mirrors in the world. This further elevates the group's positioning as a major Tier 1 supplier to automotive industry with a global footprint spanning 20 countries and having 80 manufacturing units. Importantly this acquisition also paves the way for MSSL to accomplish its stated goal of reaching a sales turnover of US\$ 1 billion by the year 2010. The Sumi Motherson Group now becomes a USD 1.6 billion group.

Since 1998 Carisway supply Cleaning and associated services to the production plants and R&D Departments, our proposal to SMR Automotive was for a more sustainable service provision that included daytime cleaning. We reduced the cost of cleaning, improved service provision and remained competitive through various benchmark exercises.

Carisway are now introducing other services into SMR Automotive which include:

- Pest Control
- Feminine Hygiene
- Consumables
- Window Cleaning
- Carpets and Car Park Cleaning
